Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1, 4-8,10,11,14-18,20-47, drawn to a method of treating the spine, classified in class 606, subclass 61.
- II. Claims 2,12,48-60, drawn to a method of accessing the spine, classified in class 600, subclass 114.
- III. Claims 3,13, drawn to a therapeutic procedure, classified in class 604, subclass 3.
- IV. Claims 10,19, drawn to a fixation device, classified in class 623, subclass 17.11.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as boring a hole. See MPEP § 806.05(d).

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operations or effects.

other if they are shown to be separately usable. In the instant case, invention IV has separate utility such as spacing two vertebrae. See MPEP § 806.05(d).

Groups II, III, IV are unrelated.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

No telephone call was made to applicant to request an oral election to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pedro Philogene whose telephone number is (703) 308-2252. The examiner can normally be reached on Monday to Friday 6:30 AM to 4:00 PM.
